Question ID : 236677639

Status : Answered

Q. Question 4(A).Write Short Note on any one of the following topics: 4

- i. Contribution of technology in education
- ii. Yoga- A union of mind and body

Question ID : 236677640

Status : Answered

Q. Question 4(B)Write a summary of the following text in not more than 5 100 words.

Climate-Smart Farming Practices are slowly gaining acceptance with farmers using clean energy sources like solar for irrigation. The farmers have been incentivized to transfer electricity generated through solar to the local grid. Crop yield prediction models using artificial intelligence and drones for monitoring soil and crop health have been initiated. Smart farming also enables crop diversification, which will help farmers reduce their dependence on monsoons for water. There are over 1,000 agri-tech start-ups in India. These assist farmers in improving farming techniques. The allied sectors of Indian agriculture - livestock, forestry & logging and fishing & aquaculture are gradually becoming sectors of buoyant growth and a potential source of better farm incomes. Recognizing the growing importance of allied sectors, the Committee on Doubling Farmers' Income (DFI, 2018) considers dairying, livestock, poultry, fisheries and horticulture as high-growth engines and has recommended a focused policy with a concomitant support system for the allied sector.

The dairy sector is the most critical component of the livestock sector, employing more than eight crore farmers directly, and is the most prominent agrarian product. Other livestock products, such as eggs and meat, are also growing in importance. While India ranks first in milk production in the world, it ranks third in egg production and eighth in meat production in the world. Considering the importance of allied sectors, the Government has made several critical interventions to enhance infrastructure and improve livestock productivity and disease control. As a part of the Aatm-Nirbhar Bharat (ANB) stimulus package, the Animal Husbandry Infrastructure Development Fund (AHIDF) worth ₹15,000 crore was launched in 2020. Under this scheme, the Central Government provides a 3 per cent interest subvention to the borrower and credit guarantees up to 25 per cent of total borrowing.

## Comprehension:

Read the following passage and answer the questions that follow on the basis of this passage:

I started running more than a decade ago to achieve sustained fitness. I enjoyed running more than I thought I would actually and got addicted to it quickly. Surprisingly, in addition to fitness, I got a meditative experience, which makes running my stress buster. When you work hard in want of something and you do get you're your mind craves for more. The marathon bug bit me too. I once hear a joke about marathons. They say that a marathon race is akin to a show where the audience pays for the show and also performs the shows. It is true in that sense but there is more to it than meets the eye. In marathon every race, right from start teaches something new, but the ultimate lesson is the right preparation for the race. Also the term race here is a misnomer as most people run to meet their personal objectives as opposed to race over the other runners or to attain a podium finish. On race day, when thousands of people assemble, it creates an euphoria of ambience. which gets the adrenaline kicking and pumping before the race. Every race is a important lesson for life. Wouldn't life be a lot better if people consider every challenge in life as a marathon and set similar self-objectives, preparing themselves and working to meet their own goals rather than competing against one another to get to the finish line. Marathon is not a rat race; life needn't be either.

SubQuestion No : 89

Q.89 What does the phrase 'there is more to it than meets the eye' means

- Ans
- 1. Clearly visible
  - 2. It involves more things than originally thought
  - 3. More than one pair of eyes
  - 4. Obscure

## Comprehension:

Read the following passage and answer the questions that follow on the basis of the information given in the passage.

M.I.T's Tonegawa might never have received his Nobel Prize if it were not for U.S. immigration laws. After his visa expired in 1971, Tonegawa, who had recently completed his Ph.D at the University of California at San Diego, was forced to leave the U.S. He ended up at Switzerland's Basel Institute for Immunology, where he managed to solve a puzzle that had baffled biologists for a century.

Tonegawa proved that cells accomplish the herculean task of making antibodies to order by reshuffling parts of the genes that govern the production of antibodies, the cellular building blocks of the immune system. He likens the process to rearranging the boxcars on a freight train.

"The dogma was that the order of the genes in any one person is immutable," he says. "The freight train never shifts its cars around. "

In spite of prevailing theory, Tonegawa found that the "cars" did indeed rearrange themselves in a multitude of different configurations to make the antibodies that fight off diseases. His work has led to discoveries of how some cancers form and could help in understanding such immune disorders as AIDS or rheumatoid arthritis. To appreciate why the immune system goes wrong, notes Tonegawa, researchers must first understand what happens when it is going right.

### SubQuestion No : 93

Q.93 The "cellular blocks of the Immune system" are

- Ans
- 1. genes
  - 2. cells
  - 3. immunogens
  - 4. antibodies

Option 3 ID : 2366772974

Option 4 ID : 2366772975

Status : Answered

Chosen Option : 3

## Comprehension:

Read the following passage and answer the questions that follow on the basis of the information given in the passage.

The only way to promote freedom is to devise a set of rules and thus construct a pattern which the various members of that society can follow. Each can then determine his own acts in the light of his knowledge of the rules. On this basis each can predict his field of action in advance and what results are likely to ensue from his acts; and so he gains freedom to plan and to carry out his plans. The more you attempt to administer society, however, the less free it becomes. There is opportunity for freedom of choice only in acting subject to the rules and then only if the rules are freed of any element of will or dictation. If these rules are just rules that tell you what method or act will yield what results, like the rules of a game, you can then freely determine your own play. You can use the rules to win the game. The more abstract and objective the rule, the freer is the individual in the choice of his alternatives. The rules must be so written as to cover every possible eventuality of choice and action.

## SubQuestion No : 97

Q.97 Which of the following statements is false?

- Ans
- 1. Choice is subject to rules.
  - 2. Dictatorial tendencies are disagreeable.
  - 3. Makers of rules should consider as many possibilities as possible.
  - 4. Society should not be administered.

Question ID : 236677796

Option 1 ID : 2366772998

Option 2 ID : 2366773000

Option 3 ID : 2366772999

Option 4 ID : 2366772997

Status : Answered

Chosen Option : 3

## Comprehension:

Read the following passage and answer the questions that follow on the basis of the information given in the passage.

The only way to promote freedom is to devise a set of rules and thus construct a pattern which the various members of that society can follow. Each can then determine his own acts in the light of his knowledge of the rules. On this basis each can predict his field of action in advance and what results are likely to ensue from his acts; and so he gains freedom to plan and to carry out his plans. The more you attempt to administer society, however, the less free it becomes. There is opportunity for freedom of choice only in acting subject to the rules and then only if the rules are freed of any element of will or dictation. If these rules are just rules that tell you what method or act will yield what results, like the rules of a game, you can then freely determine your own play. You can use the rules to win the game. The more abstract and objective the rule, the freer is the individual in the choice of his alternatives. The rules must be so written as to cover every possible eventuality of choice and action.

SubQuestion No : 98

Q.98 Which of the following does the author appear to advocate?

- Ans
- 1. Unrestrained freedom.
  - 2. Playing by the rules of the game so as to win.
  - 3. Freedom subject to sensible restraints.
  - 4. A stateless society.
